CLARIFICATION OF OPERATING OR SOLICITING DEFINITION (Updated 7/1/2011)

The SC Commission on Higher Education is the administering agency of the Nonpublic Postsecondary Institution License Act. The Commission does not have jurisdiction where institutions enroll SC residents into online courses or programs where the institution does not conduct activities defined as operating or soliciting in South Carolina.

Please refer to the Nonpublic Postsecondary Institution License Act; Chapter 62, SC Commission on Higher Education (CHE) Regulations; and forms, policies, and procedures of the Commission. Contact CHE licensing staff to obtain forms and ask any questions.

SECTION 59-58-20. Definitions, includes the following:

military installations; and accredited institutions conducting seasonal recruiting through high school recruiting fairs.

The Commission reserves the right to examine the status of any exempt institution based on information available in the future to the Commission or based on changes in authority the General Assembly grants to the Commission.

Institutions that offer on-line programs that are for teacher/administrator certification.

The South Carolina Department of Education prescribes the parameters for credentials for teacher/administrator certification. The awarding institution must hold regional accreditation and completion of the program must lead to educator certification in the state of origin. Institutions that offer education programs must closely monitor SC residents who apply to enroll in education programs to ensure that students enroll only into programs that comply with the SC DOE requirements. For more information, contact the SC Department of Education, Division of Educator Quality and Leadership, Office of Educator Certification (www.scteachers.org) Bill Billingsley (803.734.8323) <mailto:BBillingsley@scteachers.org>.

Question 16:

If a State does not regulate such activities by out-of-State institutions, the institution is considered to be legally operating in that State.

Question 22:

If...the State does not require the institution to obtain State approval under the circumstances to offer distance education to its residents, would the institution be required for the purposes of section 600.9(c) to have a document from the State stating that no approval by that State is required?

No. However, an institution would be expected to demonstrate upon request from the Department that no State approval was required.

SC does not require that an exempt institution apply for an exemption. This explanation will demonstrate to the Department that no approval is required in SC where the institution is exempt.

Regarding student complaints, Regulation 62-27 gives the Commission the authority to intervene on the behalf of a person filing a complaint against an institution that is exempt from the oversight of the Commission. Under requirements of Federal Regulation 668.43(b), institutions must provide students with contact information for filing complaints with the institution's State approval or licensing entity and any other relevant State official or agency that would appropriately handle a student's complaint. Out-of-state institutions must publish the information even though South Carolina does not otherwise regulate the out-of-state institution's provision of distance education.

The following is the suggested language for South Carolina.

Residents of South Carolina may access a complaint form through the web site of the Commission http://www.che.sc.gov/AcademicAffairs/License/Complaint_procedures_and_form.pdf The form must be completed, signed, and notarized. It may be submitted with the required documentation to reshleman@che.sc.gov or sent to Nonpublic Institution Licensing, South Carolina Commission on Higher Education, 1333 Main Street, Suite 200, Columbia, SC 29201.
